Exp 06 - Link Jira tasks with Confluence to streamline task tracking and progress monitoring for the Library Management System development.

 Create a new page in Confluence titled "Library Management System Project Overview."

 Embed at least 5 Jira issues related to the development of the Library Management System (e.g., tasks from the sprint like "Develop book search functionality," "Create user login page," etc.).

 Use the Jira macro to display issues with status (e.g., "To Do," "In Progress," "Done").

 Add a progress bar in the Confluence page to visually track the completion of each embedded Jira task (e.g., percentage of tasks completed in the sprint).

 Submit a screenshot of the Confluence page showing the embedded Jira tasks and the progress bar.
